Ms. Allychia Nanalingdita Thea Putri

PT Sayap Mas Utama (WINGS Group)

Jakarta, Indonesia

Dear Ms. Allychia Nanalingdita Thea Putri,

I am writing to express my strong interest in the **Odoo Developer Supervisor** position at PT Sayap Mas Utama (WINGS Group). With over five years leading Odoo ERP development across the FMCG and supply-chain industry — currently as Technical & Functional Odoo Developer Supervisor at PT Akasha Wira International, Tbk. — I am excited about the opportunity to bring proven delivery, technical depth, and team leadership to one of Indonesia's most respected consumer goods groups.

My experience spans Odoo Community versions 10 through 18, covering Sales, Inventory, Purchase, CRM, HRIS, Manufacturing, and POS. At Akasha Wira I lead the Odoo platform behind our Distributor Management System (DMS) and Sales Force Automation operations, integrated with Microsoft AX ERP, ETL data-warehouse pipelines, and an internal Android SFA application. The system today serves **500+ fieldforce users across 200+ active distributor routes**, cut manual reporting by **70%**, reduced order-processing cycle time from approximately four hours to under thirty minutes, and lowered stockout incidents by roughly 40% through automated reorder alerts. I have also delivered three major Odoo version migrations (v11 → v14 → v16) with zero data loss.

Beyond core development, I have grown into a **functional analyst** and **team-lead** role — leading mixed technical and functional Odoo implementations end-to-end, managing UAT, and translating operational pain points into systems the business actually uses. Selected projects include Olie's Restaurant — a greenfield POS & ERP rollout with central-kitchen production, multi-warehouse delivery, and KDS-integrated outlet POS — and the Sampoerna Mitra AYO SRC REST API integration. I am comfortable bridging conversations between sales operations, supply chain, finance, and engineering, and turning those conversations into deliverable scope.

WINGS Group's scale across FMCG categories is exactly the environment where the Distributor Management, manufacturing, and POS patterns I have built can be extended into a wider, multi-brand ERP backbone. I would welcome the opportunity to discuss how my Odoo expertise, FMCG track record, and supervisor experience can support your team's roadmap. My portfolio is available at ampradana.my.id, and I am reachable at andikamalraherawanpradana@gmail.com or +62 822-2753-9417. Thank you for your consideration.

Sincerely,

Andika Malraherawan Pradana
